Experience

Triage Consulting Group, Healthcare Consulting specializing in Revenue Integrity

San Francisco, CA

Experienced Consultant

August 2019 – Present

- Design Structured Query Language (SQL) reviews of inpatient hospital claims, focusing on Diagnosis Related Group (DRG) logic assessment and proper coding of Internal Classifications of Diseases (ICD-10).
- Work closely with the hospital's Health Information Management, Revenue Integrity, and Billing departments to correct hundreds of claims per month
- Identify and collect on over one million dollars in hospital claim's coding and billing updates monthly
- Sit on the board of Women of Triage, an Employee Resource Group, leading monthly small group discussions

Consultant

August 2018 – July 2019

- Work on a small team to review thousands of hospital claims leveraging client systems such as EPIC for effective pursuit of revenue cycle recovery
- Operate in SQL to develop queries that analyze data trends and identify revenue opportunities
- Report findings to clients and make recommendations to prevent future revenue loss and adapt to the changing Healthcare Industry

Joint Educational Project, Service-learning opportunity for USC students

Los Angeles, CA

Ecobright Teacher

January 2017 – December 2017

- Develop weekly lesson plans to teach local fifth grade students about the environment, climate change and other major public health issues.
- Learn how to effectively manage an unruly classroom, while still making the learning enjoyable for the students

Eisner Health, Health Center in Downtown Los Angeles

Los Angeles, CA

Health Communications Intern

August 2016 – December 2016

- Engage the most underprivileged and vulnerable communities of Los Angeles through monthly social media campaigns to encourage the community to get their flu shots, pap smears, wellness visits, etc.
- Interview Eisner employees for a weekly internal newsletter, adding easy and healthy recipes to the newsletter
